KEY FACTS

1. **285 million** people are estimated to be visually impaired, 246 have low vision while **39 million are blind worldwide.**
2. About 90% of the world's visually impaired live in low-income settings.
3. **82% of people** living with blindness are **aged 50 and above.**
4. **80% of all visual impairment can be prevented or cured.**

Fact Sheet N282 WHO- August 2014

What is low vision?

It is when eyes with regular glasses, contact lenses, medicine, or surgery—people find everyday tasks difficult to do.

What causes low vision?
Low vision is usually caused by:

- Eye diseases or health disorders
- Eye injuries
- Brain injuries

What are the numbers?
2.9 million Americans have low vision.
72% of people with low vision are aged 50 and older.

What can I do?
Use an eye care professional to learn about vision rehabilitation.
Get a good support system. You, your primary eye care professional, a low-vision specialist, and a rehabilitation counselor.

What is vision rehabilitation?
Vision rehabilitation services are services that help people with low vision do their jobs and live more independently by learning their own way.
Vision rehabilitation services include:
- Carry out daily living tasks safely.
- Find resources and support.
- Use magnifiers and other assistive devices.
